REPORT OF THE BOARD OF EDUCATION.

To the Citizens of Seabrook we submit this report for your kind consideration:

The schools have been in session thirty-six weeks during the year. We are very fortunate in having an efficient corps of teachers in the schools, and are very much pleased with their work.

There has been a decided change in the number of cases of corporal punishment, due in a measure, we think, to the kind and considerate treatment of pupils by their teachers.

The teachers have shown that they are self-reliant and original, and are fully aware of the responsibility that rests upon them.

The pupils have shown a marked improvement in all branches of their studies, and are very willing to follow all plans outlined by the teachers. There have been few tardinesses in the schools during the year; but a great many dismissals. It is the duty of a parent to impress upon the minds of their children the necessity of remaining in school during the entire session, and not allow them to be excused unless absolutely necessary.
